TC_005 – Name Field accepts invalid characters

+ Add @ Apps

Description
Bug ID: BUG-001

Test Case ID: TC_005
Module: Patient Registration
Field: Given Name

Steps to reproduce:

- Go to the Patient Registration form.
- Enter "John@321" in the **Given Name** field.
- Try to proceed or submit the form.

Expected:
Input should not be accepted as it contains special characters and numbers, which are not valid characters for name field.

Actual:
Input is accepted without any error message by the field.

Status: Fail

Gender field TC_004- Gender Field not accessible via Keyboard

+ Add @ Apps

Description
Bug ID: BUG-005
Test Case ID: TC_004
Module: Patient Registration
Field: Gender

Steps to reproduce:

- Navigate to the "Register a Patient" form
- Navigate to Gender field.
- Attempt to select a gender option (Male/Female) using the keyboard.

Expected:
User should be able to select between the two options (Male/Female).

Actual:
User is not able to select any option and error message : "Required" is displayed.

Status: Fail

Notes:
Expected behavior based on usability standards.

BUG-005 Step 1

BUG REPORTS SCREENSHOTS

The screenshot shows a bug report for 'BUG-005' in a system with a dark green header. The report includes the following sections:

- Actual:** User is not able to select any option and error message : "Required" is displayed.
- Status:** Fail
- Notes:** Expected behavior based on usability standards.
- Attachments:** A screenshot of a form with the text "What's the patient's gender?" and a dropdown menu. The attachment is labeled "Bug-005.png" and dated "12 Jun 2025, 04:30 PM".
- Activity:** A section with tabs for "All", "Comments", "History", and "Work log". The "Comments" tab is active, showing a comment input field with a "Pro tip: press M to comment" and buttons for "Status update...", "Thanks...", and "Agree...".
- Details:** A sidebar on the right containing a "Pinned fields" section and a "Details" section. The "Details" section lists the following information:
 - Priority: Medium
 - Assignee: shubham das
 - Labels: bug
 - Parent: None
 - Due date: None
 - Team: None
 - Start date: Jun 12, 2025
 - Development: Create branch

BUG-005 Step 2

The screenshot shows the 'Register a patient' form in the OpenMRS system. The form is titled 'Register a patient' and is located under the 'Registration Desk' menu. The form is divided into several sections:

- Demographics:** Includes fields for Name, Gender, and Birthdate, all of which are marked with green checkmarks.
- Contact Info:** Includes fields for Address, Address 2, Phone Number, City/Village, State/Province, Country, and Postal Code. The 'Address' field is currently selected.
- Relationships:** Includes a field for Relatives.
- Confirm:** A green button with a right arrow icon.

The form is currently in the 'Address' section, with the following values entered:

- Address: Flat #A2
- City/Village: New-York@1
- State/Province: CA#1
- Country: U\$A
- Postal Code: T3A@7Z8

BUG-006

BUG REPORTS SCREENSHOTS

Add epic / QOT-6

Address field TC_005-Address Fields Accept Invalid Characters

+ Add Apps

Description
Bug ID: BUG-006

Test Case ID: TC_005
Module: Patient Registration
Field: Address, City, State, Country, Postal Code

Steps to reproduce:

- Navigate to the "Register a Patient" form
- Enter the following in the respective fields:
 - Address 2: "Flat #A2"
 - City: "New-York@123"
 - State: "CA#1"
 - Country: "USA"
 - Postal Code: "T3A@7Z8"
- Click the green forward arrow to proceed

Expected:
Fields should accept all formats in address 2 section and not in other fields like city, state and postal code.
